

HASKAYNE Executive EDUCATION

Haskayne Executive Education programs deliver an impactful learning experience that combines real world knowledge, leading-edge research and practical applications to empower leaders and executives to achieve sustained success. We design and deliver customized programs tailored for organizations, governance programs for board directors and open enrolment programs for individuals.

For **ORGANIZATIONS**

Consider your toughest organizational challenge or biggest opportunity. How do you mobilize a solution from within your organization? We co-design learning solutions with our clients that focus on improving organizational capability and influencing overall performance. The aim is to combine your leaders' organizational knowledge and our faculty's research expertise to co-develop a custom program in accordance with the goals of your organization to deliver real-world results. Here's what you can expect from your customized program:

- A partnership with Executive Education's top-achieving faculty and team members who have a broad range of adult learning and practical business experience.
- Exceptional service from our client experience team to ensure the best learning environment and a safe place to practice new concepts and tools.
- Cutting edge adult learning methods which integrate with the workplace and organizational context, enabling increased learning retention and enhanced leadership capability.

For **BOARD DIRECTORS**

Programs which explore corporate governance and foster excellence in directorship. The Directors Education Program is the gold standard for directors in Canada and is a necessary step toward receiving ICD accreditation as a certified corporate director. We also offer the Not-for-Profit Governance Program which is designed for board and executive directors of NFPs. This program covers the key accountabilities and responsibilities of NFP leaders and the fundamentals for best practices in governance.

Haskayne empowered me to become a critical thinker with an executive mindset. I was able to advance my inclination to create technical successes and think big picture - helping to contribute to my career's success."

Slade Thornhill

Director, Engineering & Production, Painted Pony Petroleum Ltd.

For **INDIVIDUALS**

Haskayne's open enrolment programs aim to equip learners with practical business concepts and develop their leadership proficiency. Whether you are a technical professional attempting to differentiate your skills, an experienced manager with increasing responsibilities or an executive challenged to compete in uncertain markets, Haskayne deliberately designs and delivers programs that support achieving career goals and return on investment for your organization.

The following are programs that are offered regularly:

- Emotionally Intelligent Leader
- Rozsa Arts Management
- High Performance Negotiating
- Financial Literacy
- Business Essentials
- Supply Chain Management Excellence
- Driving Business Innovation
- Effective Decision Making
- Mental Toughness
- Entrepreneurial Thinking
